

We're Hiring!

Arboricultural Consultant

JCA Limited, based in Barkisland, West Yorkshire, are looking to appoint a qualified arboriculturist to assist with our bespoke project portfolio. The role offers a diverse variety of consultancy work which will include undertaking surveys and preparing reports in relation to; - BS 5837:2012 - Tree Condition/Tree Health - Subsidence - Mortgage (Homebuyers) - Tree/Woodland Management - Planting Schemes.

JOB RESPONSIBILITIES

- To take instructions from management and to report back within previously agreed timescales.
- To visit sites and gather accurate technical data on trees, shrubs, site measurements and other relevant information at the same time as ensuring that photographic evidence and any required samples are gathered.
- To prepare Word, Access, Excel, CAD and other digital documents from JCA templates.
- To report this gathered and digital information back to your team leader or colleagues for checking and quality control.
- To ensure that site notes and plans are gathered in a legible and presentable condition.
 - To learn and keep up to date with modern arboriculture.
 - To learn and continually improve your tree and shrub identification skills
- To learn and continually improve your fungi, and pest & disease identification skills.
 - To maintain at all times a professional approach, answering customer queries in a prompt and efficient manner, including the safe keeping of all documentation and JCA equipment.
 - To portray and promote JCA's image of being a centre of arboricultural excellence.
- To respect the confidential nature and copyright of JCA's client base, templates and other data/documentation.

QUALIFICATIONS

Educational and Experience:

- Qualified to NVQ level 4 or equivalent (essential)
- A good understanding of arboriculture & the law, trees and development, TPO legislation, trees and subsidence and tree management.

Skills & Competencies:

- Strong communication and interpersonal skills, with the ability to engage customers in a professional and friendly manner.
- A full UK Driving License.
- Advanced plant identification skills.
- Flexible and able to work hard, and occasionally away from home.
- Computer skills including the use of Word, Excel & CAD.
- Reliable, honest and trustworthy, and motivated to develop your skills.
